

# Seun Adetunji

Software Developer

## 👤 Profile

A strong desire to apply my logical & problem solving skill set developed from Chemistry, led me to undertake a 12 week intensive self-funded software development bootcamp. During the 12 weeks I learned **HTML / CSS / Bootstrap / JavaScript / C# / ASP.NET MVC / SQL Server**. I am now looking apply and consolidate my current and evolving skill set in a software development role.

## 📁 Project

### Nike Shopping Cart

- **Live Demo:** <https://nikeshoppingcart.netlify.app/>
- **Source Code:** [https://github.com/sean197/JS\\_eCommerce](https://github.com/sean197/JS_eCommerce)
- The app was a challenging app which stretched my knowledge and made me delve deeper within vanilla **JavaScript** while simultaneously greatly improving my **JavaScript** skills.
- The app was made using **grid** and also exploring **arrays, objects, local storage** and also **event delegation**.
- **Technologies used:** - **HTML / CSS / Bootstrap / JavaScript**.

### Weekly Budget App.

- **Live Demo::** <https://budgetapp47.netlify.app/>
- **Source Code:** [https://github.com/sean197/Budget\\_App](https://github.com/sean197/Budget_App)
- The aim of this website is for a user to set a budget and calculate the users capital after their expenses are paid.
- The website was used to solidify my **JavaScript** skills particularly my **JavaScript Classes** skills.
- **Technologies used:** - **HTML / CSS / Bootstrap / JavaScript**.

### Lyric Search

- **Live Demo:** <https://lyricsapimodules.netlify.app/>
- **Source Code:** [https://github.com/sean197/modules\\_lyric](https://github.com/sean197/modules_lyric)
- This is an app which fetches song lyrics when a user enters the an artist name and their song.
- The app was made to consolidate my **fetch API** and **modules skills**.
- **Technologies used:** - **HTML / CSS / JavaScript**.

## 🎓 Education

### Software Development, Just IT, London

June 2020 — Present

- Self-funded **Software Development** course where I studied and used technologies for **software development** with a small group of learners.
- Created front-end apps with **HTML, CSS, Bootstrap** and **JavaScript**.
- Created console applications using **C#** and **.Net**.

Customer Service  
Leadership  
Sales  
Mentoring  
Public Speaking  
Complex Problem Solving  
Analytical Skills  
Ability to Work in a Team  
Effective Teaching  
Research Skills

## Hobbies

Boxing, MMA, Basketball, Reading

- Created Full-Stack apps using **ASP.Net MVC, Entity Framework, MS SQL Server and JavaScript.**

**Bachelor of Science in Chemistry (Hons), University of Kent,  
Canterbury, Kent**

September 2015 — June 2019

## **Employment History**

**Teaching Assistant at Academics Ltd., London**

January 2020 — April 2020

- Helped assist the teacher in class material by teaching and keeping control of the class.
- Helped organise and control the class which increased my leadership skills.
- Exhibited strong listening skills and worked to comply with all company efforts.
- Continually excelled both individually, and also as a team player.

**Event Staff at Evolve Hospitality, London**

June 2019 — March 2020

- Provided professional customer service to guests/customers.
- Helped to delegate responsibilities to colleagues on their duties.
- Improved efficiency to work in a team by improving time management and organization.
- Exhibited strong listening skills and worked to comply with all company efforts.

**Student Ambassador at University of Kent, Canterbury**

October 2017 — July 2019

- Showed sixth form students both university and real-world scenario lab environment
- Encouraged secondary and sixth form students to investigate further education and conduct research into future aspirations
- Spoke in classrooms about my personal university experience to allow students to observe how university life will be
- Participated in carrying out campus tours with other student ambassadors.
- The experience led to me improving and developing my communication skills and presentation skills by actively engaging with the applicants and parents.
